

DLYNN ROLL

SANFORD

FLORIDA

Dlynn Roll is a self-taught artist currently living in Central Florida. Her early years were spent in Texas and although she had a strong passion to create art she put that desire on hold to pursue a career as a hair stylist. After getting married and relocating to Florida she started to explore her creative interests. Most of her efforts have centered around abstract painting where she draws on life experiences like raising two sons, surviving cancer twice and going through a bone marrow transplant for inspiration. "I create my paintings with acrylic while sometimes adding subtle metallic. My subject matter varies from abstract to whimsy. Pulling from childhood memories, current events and daily observations my artistic goal is to build a bridge between what I feel and what the viewer sees. Trusting in my faith in God I hope to share a positive "Aha" moment when my art is interpreted by my audience."
