

SHEILA FINCH

BELMONT

CALIFORNIA

The paintings of award-winning artist Sheila Finch have been exhibited in museums and galleries throughout the United States and Europe. She has received recognition from the National Arts Appreciation Program, as well as a prestigious show of work at Picasso's atelier at L'Espace Bateau Lavior in Paris. "I began painting as a child, studying studio painting with regional artist Gene Woods. By the time I was sixteen, I was earning a steady income from the sale of my paintings. Over the past 45 years, my images have evolved into somewhat abstracted landscapes. My goal is to create a visual memory of a spiritual moment in time... an enduring and timeless connection to the natural world in which we exist."
