TREND MEETS TRADITION

A WILLIAMSBURG COLLECTION

world art group

Williamsburg world art group

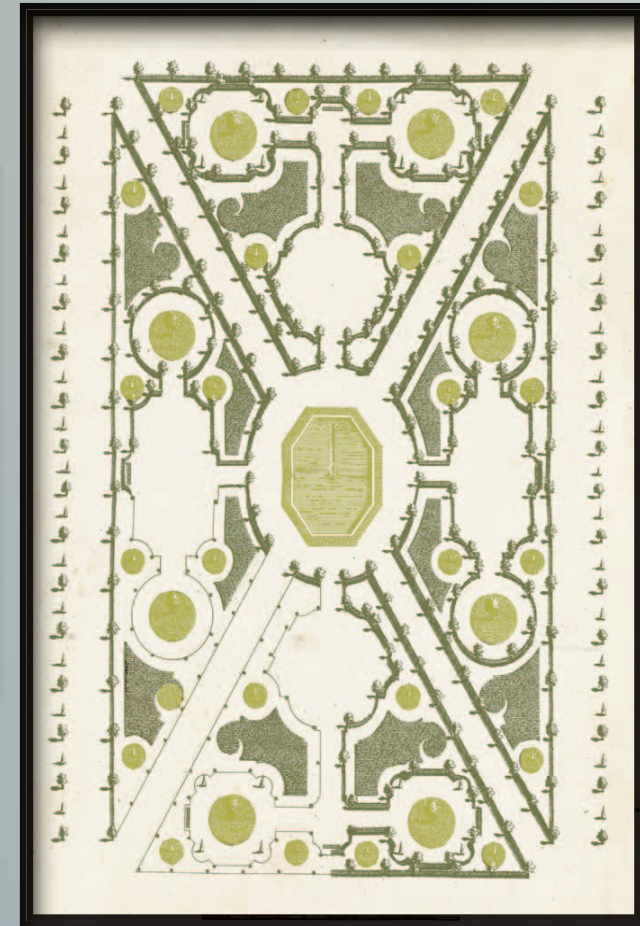

The **WILLIAMSBURG** brand serves up “trend meets tradition” style. Offering fresh interpretations of extraordinary 18th-century design, the brand is inspired by antiques and rare books in the collections of the Colonial Williamsburg Foundation. The Foundation is a non-profit organization that operates the world’s largest living history museum in Williamsburg, Virginia—the restored 18th-century capital of Britain’s largest outpost in the New World—as a center for history and citizenship. The idea of America, conceived decades before the American Revolution, comes alive here. History thrives at Colonial Williamsburg, where the legacy of nation builders encourages responsible citizenship today.

Great American design abounds here, too. Williamsburg is renowned for Georgian architecture, glorious gardens, stunning antiques, and authentic craftsmanship. Designers for licensed **WILLIAMSBURG** home furnishings tweak 18th-century inspiration in color, scale, material and finish to create products that appeal to 21st-century customers. The World Art Group mines visual resources in the museums, libraries, and archives, finding inspiration that their design team adapts in color or scale to develop artwork that complements today’s classic, casual, or contemporary interiors. Sales of **WILLIAMSBURG** products support Colonial Williamsburg’s preservation, research and educational programs.
